SECURITY CASES	One-Time security cases can take your console game, software, and DVD collection to new heights, allowing libraries to keep the disks inside the case and on the shelf. Used with a low-profile decoupler, the innovative internal locking system clearly shows a red locked icon or a green unlocked icon.

	The D-Fence system was designed to provide the toughest security for you media collection. To accomplish this, not only must the security features pass the most rigorous testing but the physical appearance must intimidate would-be violators of media checkout rules. D-Fence system accomplishes both. The hefty construction and over-sized physical dimensions of the cap combined with the metal appearance of the hub tells everyone this case means business.
