

Happy happy August to everyone. Changes are afoot. The big kids are getting ready to go back to college. The little kids are getting their new school shoes and, if you are in Arizona, everyone is already back in the classroom. Yikes. We have a few more weeks of vacation time here, but the pace is already picking up a bit.

I'm delighted to report that our NEW website is up and the orders are flowing. We have received some questions and good feedback, and I welcome all your comments. Yes, you must create a new account (username/password) in order to view the online catalog. Your library can have as many online "accounts" as you like. Be assured that they all funnel into your singular library account in our off-line, secure system. You can also see and print any of our past newsletters and catalog supplements quickly and easily. The forms for our standing order programs are available for download. It's working well on our end, and I'm interested to hear what you all think. Take a peek: www.crimsoninc.com.

We have a new security case for you. The Denial System is in use by libraries around the country. We have recently added this system as a replacement for the discontinued D-Fence System. The Denial Cases are ultra-sturdy. We can process them just as we do the One-Time cases. If your tech services folks prefer to DIY, we have all the security cases available for sale without processing.

We close our fiscal year at the end of the month, and that will complete a full 50 years that the Klise Company has been working with schools and libraries. Along the way, we made a few acquisitions including Spectrum Books and Crimson Multimedia. We have published educational products in the form of filmstrips, VHS tapes, disc and CD-ROM software, reproducible books, transparency programs, teacher guides, and audio kits. We have distributed media cases, software, and video games. The common thread, through the years, has been the wonderful working relationships that we have enjoyed with our many customers. Thank you all so very much.

Among the Sleep

© 2016 SOEDESCO

Among the Sleep is a horror game, played in first person from the perspective of a two-year-old child who wakes up in the middle of the night and starts looking for mommy. This is not a simple task. The house is full of scary sounds and strange shadows. Solve puzzles, hide from monsters, and waddle your way through your big house to get to safety. But most importantly, don't forget to squeeze your teddy when the creepy sounds get especially scary. Rated T.
