Our 50th Year

Happy new year. And, with that, we're off and running into 2018.

It looks like the publishers enjoyed their holiday because the January releases are a manageable number of titles. Not too overwhelming. The Switch titles have become best-sellers to our libraries, so I was happy to see a couple of those on the January list. Mostly, though, this is the calm before the February storm when the release list is much longer.

One title – UFC 3 – you'll see included here in the premium edition. We don't usually offer the premium editions of titles, since the regular version works just fine for circulation. However, UFC 3's regular edition wasn't due out for a month. Well, the publisher moved that release date up and now UFC 3 will be available in the \$60 regular edition next month. If your patrons can be patient, we'll have that version on the website in early February. We have options!

A new year is a good time to consider standing order for your library video games. You set the parameters and we send a monthly box of fresh games for your collection. The information to get started can be found on our website.
