D-Fence Security Case

The D-Fence system was designed to provide the toughest security for your media collection. To accomplish this, not only must the security features pass the most rigorous testing but the physical appearance must intimidate would-be violators of media checkout rules. D-Fence system accomplishes both.

The security is enforced with a sonically welded cap with a complex movement of springs and cylinders inside that bolt down onto a metal hub. Only the specialized magnetic decoupler will release the cap from the hub without damage to the disc or packaging. The lock is effortlessly removed at checkout, but otherwise is near impossible to forcibly remove providing a high level of tamper resistance and disc protection.

The hefty construction and over-sized physical dimensions of the cap combined with the metal appearance of the hub tells everyone this case means business.

- Overlapping side walls and double spine wall for durability
- Case can be ordered with hub already inserted into case or case and hub separately
- Full outer sleeve entrapment for title lithographic
- Defense Hub cap sold separately, DFC-3
